

Dear Breeders,

As of the year 2008, there will be a change in the registration procedure for the official branding events.

Foals that are born before the deadline for registration should be registered as before with the Notification of Foaling form (Abfohlmeldung).

As of 2008, foals not yet born by the deadline must also be registered if they are to be presented at an official branding event. To register these foals, please use the following form which is to be sent to: Verband der Züchter des Oldenburger Pferdes, Grafenhorststr. 5, 49377 Vechta, Germany or by fax to +49 (0)4441/93 55 99.

These foals will then be listed in the catalogue with the data available (pedigree, breeder, exhibitor) and can be presented at the branding event according to the number in the catalogue and not as a late registration at the end of the branding event.

**Important:** The Notification of Foaling forms for foals that have been registered for the branding event with the form below must still be filled out after the birth of the foal and sent to the Verband!

In the course of these changes, the fee for late registration for branding events will be increased to 50 € as of 2008. Without exception, late registered foals may only be presented at the end of the branding event. As before, there will be no extra charge for reregistering but these foals must also be presented, without exception, at the end of the branding event.

Please remember that foals must be at least two weeks old before they can be presented at one of the branding events.

---

## Registration of a foal not yet born for an official branding event

**(Attention: as of 2008, this form must be filled out and sent to the Verband by the respective deadline if the foal is to be presented at an official branding event)**
